BUSINESS PRESENTATIONS

Do not miss the opportunity to present yourself on the biggest and most important professional-business Conference in Central and Southern Europe on the topic of drinking water supply and wastewater treatment. Your audience will be around 700 leading persons from the area of water management. The companies which decide to present themselves at the Conference by means of the sponsorship contract, shall have a free advertising space for a brief presentation of the company, or its products and services on the joint marketing DVD. This DVD shall be distributed to all participants at the Conference. Sponsors of the Conference have a status of full-fledged participants and are obliged to pay the conference fee. Any type of commercial activity shall take place in accordance with the special Contract signed with the organizer and with an official accreditation. The marketing programme can be obtained from the Revelin Agency.

CONFERENCE FEE
The conference fee is 1.950 kn (including VAT), that is, 263 €, if paid until 6th September 2019. For submissions received later than that date, i.e. from 7th September onwards, the conference fee shall be 2.350 kn (including VAT), or 316 €. Conference fee shall be paid by all participants of the Conference, irrespective of the number of days booked or the number of participants from a single company or institution.
The Conference fee must be paid before arrival for accreditation in the hotel.
Conference fee comprises the following:
- Preparation, organization and realization of the Conference
- Participation in the work of the Conference
- Conference Proceedings and two CDs
- Gala dinner on Friday
- Field trip on Saturday including two meals
Participation on this professional-business Conference ensures the receipt of points for professional training in civil engineering and machine engineering.

KEY DATES
31st May 2019 submission of technical papers containing title and summaries (in Croatian and English language)
15th August 2019 6th September 2019 submission of full text of the papers confirmation of hotel booking by payment
until 6th September 2019 payment of the conference fee (1.950 kn / 263 €)
payment of the conference fee (2.350 kn / 316 €)
from 7th September 2019 until 27th September 2019 cancellation of hotel booking at no charge
until 5th October 2019 submission of full presentations in Power Point

Dear Sirs,

The annual international meeting of experts on water supply, sewage and wastewater treatment of the Croatian Water and Wastewater Group with international participation will take place from 23rd to 27th October at the Elaphusa Hotel in Bol on the island of Brac. We cordially invite you and other stakeholders to this event, which aims to bring together experts from Central and Southern Europe who are involved in water supply, sewage and wastewater treatment. Therefore, we invite you to participate in one of the most important water management events in this part of Europe.

The expert and business meeting traditionally takes place under the following name:

CURRENT ISSUES IN WATER SUPPLY AND SEWAGE

The annual meeting of the Croatian Water and Wastewater Group has recognized this event as the most important event of the year, bringing together experts in water management from many European countries. The purpose of this meeting is to exchange knowledge, ideas and information in this field.

The exchange of contacts and experience in the field of the water sector, sewage and wastewater treatment is also of great importance - the purpose here is to ensure that the objectives and activities which are improving the performance of the entire society and increasing the quality of service to the end users are achieved.

In addition to the presentations of technical papers, this year's programme, grouped by subject areas, thematic workshops, meetings and discussions with numerous active participants.

Thematic round tables and workshops were organized as key events during this Conference, with the aim of taking a closer look at some of the current topics in the water sector. The discussions will be attended by recognized experts from the field, as well as representatives of direct participants in the processes of implementing EU projects.

We plan to divide the entire official part of the programme with the technical presentations into thematic units, which will also serve as a classification criterion for the papers received. Although the editors of the conference proceedings will sort all received technical papers based on their title and summary, according to a special, lower price. The technical papers must contain the following:

1. PROBLEMS IN PREPARING AND IMPLEMENTING EU PROJECTS
2. TECHNICAL AND ECONOMIC ASPECTS OF LOSSES IN WATER SUPPLY SYSTEMS
3. REMOTE READING OF WATER CONSUMPTION
4. PROBLEMS IN MANAGEMENT AND TREATMENT IN WASTE TREATMENT PLANTS
5. QUALITY AND TREATMENT OF DRINKING WATER AND WASTEWATER QUALITY

We are convinced that the above-mentioned agenda will attract the interest of both individuals and companies in preparing presentations, as well as lectures on the above-mentioned subject areas in their future plans.

Current situation in the field of water supply, sewage and wastewater treatment in Croatia is marked by numerous activities which are improving the performance of the entire water sector and increasing the quality of service to the end users - the purpose here is to bring together the exchange of knowledge, ideas and information in this field.

We therefore cordially invite the participation of representatives of public water companies, university professors and lecturers, heads of ministries and municipalities, and representatives of architects, engineers, manufacturers and distributors of equipment, suppliers of materials and inspection bureaus.

The high-impact profile of participants is expected to offer a variety of contacts and experience in the field of the water sector, sewage and wastewater treatment.

This highly competent profile of participants is expected to offer a variety of contacts and experience in the field of the water sector, sewage and wastewater treatment.

The Organizing Committee

Submissions and abstracts of the papers will be published in the Book of Proceedings and on CD.

THE ORGANIZING COMMITTEE

InstructiOns for Writing and Submission of Technical Papers

- Format A4, written with a font not bigger than 12 points, up to 10 pages in length and double spaced. Pages should be submitted in JPEG or TIF format, 1,1 with a minimum resolution of 300 dpi.
- The technical papers must contain the following:
  1. Name and surname of author with title (company, address, telephone, e-mail address)
  2. Contact details (company, address, telephone, e-mail address)

- Table in Croatian language

Wastewater Committee
- Milan Ban, chairman
- Marin Juko
- Ragnhildi Nadarević
- Marina Orel
- Grasa Peros
- Antonia Kerzele
- Sanja Horvat

Drinking water Committee
- Ivan Kovačić
- Nikola Novotni – Horčička
- Dražen Strčić
- Jasna Kopić
- Božidar Ćapaljka

- Ivan Jukić, chairman
- Milan Juko
- Marin Juko
- Ragnhildi Nadarević
- Marina Orel
- Grasa Peros
- Antonia Kerzele
- Sanja Horvat

Submissions of papers will be published in the Book of Proceedings and on CD.

Applications for Participation and Hotel Booking

Calculating with an arrival of 700 guests, the accommodation will be organized within the Bluesun Resort in Bol, on the island of Brac, and Priority in hotel booking will be given to those who will use a three-day or four-day package and who confirm the reservation of their hotel booking together with payment until 6th September 2019.

Application for participation and hotel booking is possible on the website of the conference, which will be published in the near future.

will affect the efficiency of the EU Directives. The Conference is designed to address these issues, as well as to the interests of the general public. Its ultimate goal is to start and implement so many projects may be possible, directly related to growth and development and affecting the development of the business sector in general.

Through the variety of laws and regulations, the legal framework has a significant number of water supply and wastewater treatment projects, thus affecting the performance of codes and water suppliers in the Republic of Croatia. One of the reasons for the operation of public utilities in the country is the reform of the water sector, which is already under way, taking into account only a few factors that a large number of activities is expected to substantially reform the entire sector.

From all of the above, we expect a wide range of expert issues to be addressed during this conference, through presentations grouped by subject areas, thematic workshops, meetings and discussions with numerous active participants. Thematic rounds are attended by international experts and English-speaking conferences, with the aim of taking a closer look at some of the current problems in the water sector. The discussions will be attended by recognized experts from the field, as well as representatives of direct participants in the processes of implementing water supply projects.

We plan to divide the entire official part of the programme with thematic presentations into thematic units, which will also serve to sort all received papers and group them according to their title and summary, according to the author and co-authors. The title and summary should be in both Croatian and English language. The editors of the conference proceedings will sort all received papers and group them according to their title and summary, according to the author and co-authors. The title and summary should be in both Croatian and English language.

Along with the application, it is necessary to submit a summary in English about 100 words, along with a clearly typed and signed paper, as well as a statement of the conference proceedings.

All accepted papers will be published in the Book of Proceedings and on CD.
Dear Sirs,

The annual international meeting of experts on water supply, sewage and wastewater treatment in the Republic of Croatia is a most important event in this part of Europe. This expert and business meeting traditionally takes place under the familiar name:

CURRENT ISSUES IN WATER SUPPLY AND SEWAGE TREATMENT

The annual meeting of the Croatian Water and Wastewater Group has recognized this event as the most important event of the year, bringing together experts in water management from many European countries. The purpose here is to ensure that the objectives and the purpose thereof is to improve and promote the business activities which are improving the performance of the entire wastewater treatment in Croatia is marked by numerous varied supporting programme, including the display of equipment and installations, institutes and inspection bureaus. We therefore cordially invite the participation of representatives of direct participants in the processes of wastewater treatment. Therefore, we invite you to participate in one of the most important water management events in this part of Europe.

Therefore, we invite you to participate in one of the most important water management events in this part of Europe.
Dear Sirs,

The annual international meeting of experts on water supply, sewage and wastewater treatment of the Croatian Water and Wastewater Group with international participation will take place from 25th to 27th October at the Elaphusa Hotel in Bol on the Island of Brač. We are convinced that such an event will contribute to the regular exchange of experiences of the organizers and participants of conferences bringing together experts from Central and Southern Europe who are involved in water supply, sewage and wastewater treatment. Therefore, we invite you to participate in one of the most important water management events in this part of Europe.

This expert and business meeting traditionally takes place under the familiar name:

CURRENT ISSUES IN WATER SUPPLY AND SEWAGE

The annual meeting of the Croatian Water and Wastewater Group has recognized this event as the most important event of the year, bringing together experts in water management from many European countries and countries outside Europe who are interested in the exchange of knowledge and experience of private individuals, companies and institutions. From year to year, we witness a growing interest in this event, which, by current estimates, will number 600 to 700 participants this year.

Significant is also the interest of the authors of the technical papers, both from Croatia and abroad, who share their experiences and achievements in their presentations at the Conference. This provides a basis for a high-quality professional exchange of experiences between the technical contributors and their counterparts in public institutions, with the aim of informing each other about new developments in all areas of water management, new developments as well as problems encountered in the field of water supply, sewage and wastewater treatment.

In addition to the presentations of technical papers, this year’s expert meeting will also offer other activities in the form of a varied supporting programme, including the display of equipment and the presentation of services. We know from experience that our thematic workshops are very well attended, which is not surprising, as here the latest developments are presented in a pleasant atmosphere and useful discussions on current problem areas abound.

The exchange of contacts and experience in the field of the management of water resources has a purpose thereof is to improve and promote the business activities of those companies who are the carriers of development in the water sector. These companies are:

- Energy and Environment
- University professors and lecturers
- Manufacturers and distributors of equipment and other goods and services
- Architects, engineers, manufacturers and distributors of equipment and other goods and services
- University professors and lecturers
- Manufacturers and distributors of equipment and other goods and services

Current situation in the field of water supply, sewage and wastewater treatment in Croatia is marked by numerous activities which are improving the performance of the entire water sector and increasing the quality of service to the end-users – the purpose of the conference is to discuss these topics from different aspects and commitments which Croatia took on as a full member of the European Union and whose implementation is directly related to growth and development and affecting the development of the entire water sector. Through a variety of laws and regulations, the legal framework has a large influence on the preparation and implementation of many investment projects, thus affecting the performance of operators and water suppliers in the Republic of Croatia. One of the key areas for the operation of public water utilities in the country is the reform of the water sector, which is already underway in the Republic of Croatia. The goal for the near future is that a large number of activities is expected to substantially reform the entire sector. From all of the above, we expect a wide range of expert issues to be addressed during the conference, through presentations grouped by subject areas, thematic workshops, meetings and discussions with numerous active participants. Thematic roundtable discussions will be organized as key events during the Conference, with the aim of taking a closer look at some of the current issues in the water sector. The discussions will be attended by recognized experts from the field, as well as representatives of direct participants in the processes of implementing programmes.

We plan to divide the entire official part of the programme with technical presentations into thematic units, which will also serve as a classification criterion for the papers received. Although most papers will fall into the specific disciplines, listed below, we encourage also those papers, which may be outside of the given framework but which relate to the issues of water management. The foreseen thematic units at this year’s meeting, which are only a guide, are authored by the technical papers, are as follows:

1. PROBLEMS IN PREPARING AND IMPLEMENTING EU PROJECTS
2. TECHNICAL AND ECONOMIC ASPECTS OF LOSSES IN WATER SUPPLY SYSTEMS
3. REMOTE READING OF WATER CONSUMPTION
4. MANAGEMENT, TREATMENT AND TREATMENT IN WASTE WATER TREATMENT PLANTS
5. QUALITY AND TREATMENT OF DRINKING WATER AND WASTEWATER QUALITY

We are convinced that the above-mentioned agenda will attract the interest of both individuals and companies in preparing presentations, as well as lectures on the above-mentioned subjects in their current projects. We expect that the thematic units of the programme agenda with their participation and thus contribute to the implementation of the programme goals in their specific thematic units.

We therefore cordially invite the participation of representatives of public water companies, university professors and lecturers, heads of ministries, departments and Hrvatske vode, planners, operators and water suppliers in the Republic of Croatia. One of the key areas of the conference proceedings will be the selection of technical papers based on their title and summary, according to the foreseen thematic groups.

The submission of technical papers with summaries should be sent until:

31st May 2019

All accepted papers will be published in the Book of Proceedings and on CD.

Applications for participation and hotel booking

Calculating with an arrival of 700 guests, the accommodation will be organized within the Bluesun Resort in Bol, on the Island of Brač. Priority in hotel booking will be given to those participants who will use a three-day or four-day package and who confirm the reservation of their hotel booking together with payment until 6th September 2019.

Application for participation and hotel booking is possible on the www.i-2019.hr website and with a clearly typed and signed application form which can be sent to Revelin by e-mail or fax. The application serves as a Contract on the purchase of the given package and it is on the basis of the application form that a pro forma invoice comprising accommodation costs and conference fee shall be sent to the participants. A written cancellation of hotel booking at no charge is possible until 26th September 2019. After this date, a cancellation fee in the amount of one night’s stay shall be invoiced.

INSTRUCTIONS FOR WRITING AND SUBMISSION OF TECHNICAL PAPERS

- Format A4, written with a font not bigger than 12 points, up to 10 pages in Microsoft Office 2003 or later.
- Pictures should be submitted in JPEG or TIF format, 1,1 with a minimum resolution of 300 dpi.

The technical papers must contain the following:

- Name and surname of author with title (company, address, telephone, e-mail address)
- Contact details (company, address, telephone, e-mail address)

(The banking fees for transactions shall be borne by the participant)

Do not miss the opportunity to present yourself on the biggest and most important professional-business Conference in Central and Southern Europe on the topic of drinking water supply and wastewater treatment. Your audience will be around 700 leading persons from the area of water management.

The companies which decide to present themselves at the Conference by means of the sponsorship contract, shall have a free advertising space for a brief presentation of the company, or its products and services on the joint marketing DVD. This DVD shall be distributed to all participants at the Conference.

Sponsors of the Conference have a status of full-fledged participants and are obliged to pay the conference fee.

Any type of commercial activity shall take place in accordance with the special Contract signed with the organizer and with an official accreditation.

The marketing programme can be obtained from the Revelin Agency.

BUSINESS PRESENTATIONS

Do not miss the opportunity to present yourself on the biggest and most important professional-business Conference in Central and Southern Europe on the topic of drinking water supply and wastewater treatment. Your audience will be around 700 leading persons from the area of water management.

The companies which decide to present themselves at the Conference by means of the sponsorship contract, shall have a free advertising space for a brief presentation of the company, or its products and services on the joint marketing DVD. This DVD shall be distributed to all participants at the Conference.

Sponsors of the Conference have a status of full-fledged participants and are obliged to pay the conference fee.

Any type of commercial activity shall take place in accordance with the special Contract signed with the organizer and with an official accreditation.

The marketing programme can be obtained from the Revelin Agency.
The conference fee is 1,950 kn (including VAT), that is, 263 €, if paid until 6th September 2019. For submissions received later than that date, i.e. from 7th September onwards, the conference fee shall be 2,350 kn (including VAT), or 316 €.

The conference fee shall be paid by all participants of the Conference irrespectively of the number of days booked or the number of participants from a single company or institution.

The Conference fee must be paid before arrival for accreditation in the hotel.

Conference fee comprises the following:
- Preparation, organization and realization of the Conference
- Participation in the work of the Conference
- Conference Proceedings and two CDs
- Gala dinner on Friday
- Field trip on Saturday including two meals

Participation on this professional-business Conference ensures the receipt of points for professional training in civil engineering and machine engineering.
